

TIRE ASSESSMENT

How do I assess on my vehicle whether the tires comply with Swiss law?

- The tire must have at least 1.6mm tread over the entire tread surface (VTS Art. 58 par. 4)

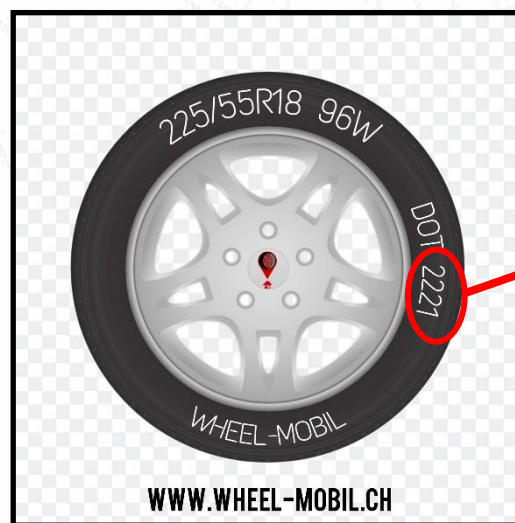

Info: If you pay attention to small elevations in the tread grooves, the so-called Tread Wear Indicator, you can determine the height of 1.6mm.

- The damage to the tire must not expose any tissue (VTS Art. 58 par.4)

- A maximum age of a tire is not prescribed by law. It is recommended to replace the tire after 6 to 10 years at the latest or at least have it visually inspected.

Date of manufacture DOT **2221**;
22: Calendar week 22
21: Year 2021

If you have any questions, please do not hesitate to contact me by phone.

Kind regards
